CLUB MANAGERS

AUTHORIZED SERVICE PERSONNEL

Introducing a groundbreaking feature on the BODY BIKE SMART+ Phantom – Onboard Tracking.

Revolutionizing the experience of owning and servicing a BODY BIKE, this innovative addition provides unparalleled insight into the bike's performance, catering to both club managers and authorized service personnel alike. Club managers gain access to comprehensive data, allowing them to monitor operation time, distance, average watt, and meticulously track parts history. Moreover, authorized service personnel can effortlessly register replaced spare parts, with the bike seamlessly logging the date and distance automatically.

This advanced tracking system not only streamlines maintenance but also maximizes operational efficiency, setting new standards in fitness equipment management.
